

SEX AND THE CITY 2 - 1

Miranda
Three times? Try three months.

Kerry

No!

Miranda
Yes. (beat) Now would be a good time to wipe that horrified look off your face.

Kerry

I'm sorry sweetie, I'm sorry. I just... Wow! I didn't know. Where have I been?

Miranda
You've been having sex. I've been at Blockbuster renting videos ~ it's tragic. I'm like ~ two rentals away from a free pound of gummy bears.

Kerry
Oh, relax you're just in a dry spell.

Miranda
Ah.. I can't believe you said that. You're all freaked out about three times. I'm talking three months.

Sex and the City 1 - 2

Kerry

Yeah, but that's different. Not doing it when you're with someone means much more than not doing it when you're not with someone.

Miranda

What are you worried about? I thought you said everything felt really comfortable and great.

Kerry

Yeah ~ well, maybe too comfortable. (pause) Anyways...I farted. I farted in front of my boyfriend.

Miranda

And?

Kerry

And we're no longer having sex. And he thinks of me as one of the boys. And I'm going to have to move to another city where the shame of this won't follow me.

Miranda

You farted. You're human.

Kerry

I don't want him to know that. I mean, he's this perfect guy, you know, he walks around his perfect apartment in his perfect suit and he's just perfect, perfect, perfect, perfect, and I'm the girl who farts. No wonder we're not having sex.

SEX AND THE CITY 1 - 3

Miranda

You're insane. It's been three times. It's perfectly normal.

Kerry

Says who? I mean, say it's not this. Then what else is going on? I mean, is it normal to be in the same bed and not do it?

Miranda

I guess it depends on what's normal for you.

Kerry

God, I hate that. Who am I to know what's normal? I've been dating a hundred years I don't have a clue.

Miranda

Well, three months is not normal for me. One month was interesting, two months was numbing, three months... I'm going out of my mind.
