

Blue State 2 (no)

She

So, what happened with you and Gloria?

He

What?

She

Did ya get it on?

He

(BEAT)
no.

She

Yeah, right.

He

It's true. We really didn't do anything. I was too drunk.

She

You mean you couldn't get it up.

He

I was too drunk.

She

That's... perfect.

He

I thought something was going on between you and Randal?

She

He was a terrorist! But at least he was talking to me.

He

I'm sorry I was an asshole.

She

Yeah, you're pretty insensitive for a liberal pussy.

He

(BEAT)

You want another beer?

She

Sure.

He

Then allow me, the liberal pussy, to get you another beer.

She

(BEAT)

So, where to now?

He

I thought we'd live here.

She

(BEAT)

I'm going to go back. If I don't face it all now, I'm going to end up living in a log cabin in 30 years in the middle of nowhere.

He

That won't happen, unless you let it.

She

Or I'll end up marrying some crazy Canadian hockey player just for the citizenship.

He

No, no, no. there's people we can talk to, they have lawyers that deal with this.

She

What would your brother think? Honestly. Because I know what the rest of my squad are thinking right now.

He

(BEAT)
My brother's dead.

She

You serious?

He

It happened about 3 months after "Mission Accomplished", and all that crap. His Chinook went down near Basra.

(BEAT)
It was totally pointless.

She

And your parents, they don't know?

He

Denial.

She

I'm so sorry.

He

We couldn't go five minutes without getting into an argument. So I didn't talk to him for about four months before it happened.

She

He was just doing his job.

He

I'm sorry I was such a jerk.

She

(BEAT)
Listen, just drop me a mile from the border or something, and I'll walk over

He

You know, the election, my stupid blog, this whole trip... you're the only good thing that's happened in quite a while. I can take you.

She

If you're with me, you might end up getting involved. Getting detained, or something.

(BEAT)

Just drop me off. And then you can head on to Vancouver.

He

(BEAT)

If I kiss you now, are you going to punch me again?

She

(BEAT)

No.

He

You sure?

She

Yeah.

He

'Cus it hurt.
